stock. This is a mistake, although it is seldord that I buy New goods on the regular full price system, as I never ask more than from \$200 to \$350 for the very best Pianos made. Pianos regularly sold at prices ranging from \$450 to \$1,000. I must buy them in such a way as to sell for less than the manufacturer's wholesale price. This I do by attending assignces' sales, and accepting the offers of manufacturers in need of ready cash, and willing to make sacrifices. Pianos and organs from the best known makers frequently arrive at my store with the simple instruction: "Sell this

for the best cash offer, and remit as soon as possible."
